1. Select a chapter or section to print. In this example, we are using Chapter 2.04 – City Council. In the top right corner, select the printer icon.

2. The next page allows you to select specific sections you would like printed within the chapter. Or you can print the entire chapter when all boxes are checked. You can do this by checking the title box Chapter 2.04 – CITY COUNCIL.

To print entire chapter – All boxes should be checked. Then select the print button.
To narrow your print job, or just print one section within a chapter, uncheck the title box and check which sections you want to print. Then select the print button.

3. After selecting the print button, a page will open showing you the sections you want to print. Double check to ensure these are the correct pages, and select the print button again which will take you to the final printing step with your printer.
