

## PUBLIC WORKS DEPARTMENT (510) 215-4369

## TREE AGREEMENT

## TREES TO BE PLANTED IN THE PUBLIC RIGHT OF WAY

The property owner may choose a tree from the Approved Master Tree List that is the appropriate size for the parking strip. Before planting the tree(s), the property owner must agree to maintain the watering & staking of the new tree(s) for up to two (2) years from the date planted. The property owner also agrees to report to the El Cerrito Maintenance Division (510-215-4369) any problem they detect in the development of the new tree within this 2 year period or at anytime during its lifetime at your address.

Should tree(s) die within two (2) years from the date planted, the property owner agrees to:

- Replace dead tree(s), at property owner's expense, with tree(s) from Approved Master Tree List (at least 15-gallon container size);
- Apply for an encroachment permit and pay all applicable fees.

I agree to the conditions of this tree-planting agreement.
