

# DROP-OFF RECYCLING CENTER

## Recycle at the EL CERRITO RECYCLING + ENVIRONMENTAL RESOURCE CENTER

The El Cerrito Recycling + Environmental Resource Center offers community members a convenient way to reduce their environmental footprint by offering extensive recycling and reuse services. As a LEED Platinum-certified facility that features a zero-net energy building, recycled rainwater catchment, rain gardens for treating storm water, native plantings, and reused building materials, the Center is also a living model of sustainability.

| Diapers (used or clean)   | Plastic straws, utensils           |
| Chip bags (any mylar packaging)                                 | Plastic items smaller than 2" x 2" |
| Ceramics, dishware & glassware (best reused, e.g. art supplies) | Polystyrene (#6) food packaging    |
| Hoses, PVC pipe   | Used tissues                       |

Garbage is collected by East Bay Sanitary. More information: 510-237-4321 • EBSan.com

# SERVICES & REQUIREMENTS

## Collection Details

East Bay Sanitary collects green waste, food scraps, and garbage and the City of El Cerrito collects recyclables from all businesses, institutions and multi-family units using a variety of containers. Choices include carts, dumpsters, and roll-off bins. Unsure of what size or how many times per week you need to meet your solid waste needs? Please contact East Bay Sanitary for green waste and garbage services and the City of El Cerrito's Recycling Center for recycling services.

## Mandatory Recycling and Green Waste Collection

Over the past decade, the State of California has passed multiple pieces of legislation requiring most businesses, institutions, and multi-family complexes to provide recycling and organics (green waste and food scraps) collection services. Legislation includes:

- AB 341 (effective 2012): Mandatory recycling services for businesses and multi-family units generating 4 or more cubic yards (CY) of garbage per week;
- AB 1826 (effective 2018): Mandatory green waste composting for specified multi-family complexes and commercial accounts;
- AB 827 (effective 2020): Requires accounts subject to mandatory recycling and organics requirements to provide indoor recycling and organics receptacles for customers;
- SB 1383 (effective 2022): Mandatory recycling, green waste and food scraps collection services for all commercial and residential properties and required edible food recovery for businesses (e.g. grocery stores) meeting specific thresholds.

In addition, the City of El Cerrito has several ordinances that help control certain types of problematic waste. These include:

- El Cerrito Plastic Bag Ordinance (ECMC 2013-03): Bans El Cerrito retail and other applicable businesses from providing single-use plastic bags;
- El Cerrito Foodware Ordinance (ECMC 2013-04): Bans El Cerrito food service businesses from providing prepared food in EPS foam foodware or take-out containers and instead use foodware containers that are either compostable or recyclable through the City's recycling program.
- Visit [El-Cerrito.org/SourceReduction](http://El-Cerrito.org/SourceReduction) for more information.

## Need help?

Both the City of El Cerrito and East Bay Sanitary provide free assessments, training, and materials to help get your business and apartments recycling, collecting organics, and in compliance with applicable laws. Contact us if you have questions or need assistance:
