This Special Study Map was prepared by the Building Official of the City of El Cerrito. This map depicts areas within the City of El Cerrito that are potentially subject to future development of structures with special structural considerations due to the potential for earthquake forces. The map is based on the 1995 City of El Cerrito Earthquake Risk Study, which was updated in 2003. The map is intended to assist in the design and construction of buildings in these areas.

The map includes the following areas:
- Active Faults
- Zone 1 and Zone 2 Seismic Zones
- Special Seismic Hazard Areas
- Flood Hazard Areas
- Special Study Areas

The map is updated biennially and is subject to the California Building Code and the City of El Cerrito Zoning Ordinance. For more information, please contact the Building Department at (510) 783-3333.
